Professional Summary

Highly skilled fullstack web developer proficient in MERN stack. Collaboratively craft and deliver scalable web applications. Quick to master new tech stacks, including generative AI. Strong problem-solving and communication abilities. Ideal contributor to dynamic development teams.

Experience

Datamotive.io, Pune

October 2023 - May 2026

Full Stack Developer

- Contributed to an enterprise disaster recovery platform, developing scalable frontend applications to enhance virtualization and upgrade workflows.
- Architected and built the Day 2 Portal from scratch enabling real-time monitoring and management.
- Engineered the Platform Upgrade Flow for seamless in-app access to version upgrades and new feature rollouts.
- Enforced code quality through TypeScript strict mode, ESLint, and modular reusable component architecture.
- Collaborated in cross-functional Agile sprints with backend engineers, QA, and product managers to ship features on schedule.

Tech Stack

JavaScript | React | Redux | SCSS | HTML | CSS |

Bootstrap | TypeScript

Projects

Jewellane
